Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Nancy Gardner's "Charlie Chowdah"

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOEA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Well, you can find it all and so much more on the [EDOA website](#).

Right on the home page is a link to find your name among those renewing membership for 2025. Under the "More" tab you can see maps of walks recommended by our members. Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.

EDO A NEWS

Newsletter of the Eastham Dog Owners' Association

Find it All on the EDOA Website

- Can't remember if you have signed up as a 2025 EDOA Member?
- Do you need a map of a place for a nice, new dog walk?
- Want to find discount services for your pup?

Well, you can find it all and so much more on the [EDO A website](#).

Right on the home page is a link to find your name among those renewing membership for 2025. Under the "More" tab you can see maps of walks recommended by our members. Need a discount on yard clean-up, or puppy training or, or vet services? You need to check out the "Member Benefits" page. New discounts are posted throughout the year along with specials being offered by our business supporters.

The website takes a TON of time to maintain, but we want you to have access to all your dog association has to offer.

[Go on-line and check it over.](#)

EDO A on Social Media

Keep up to the minute by checking [our Facebook page](#). You can share your news and experiences and photos of your dog(s))) to help cheer us up. As a bonus it will keep you away from the typical news bombs and fake advertising. Our site is just for local dog owners to socialize and check out what is happening in our community.

How about posting a holiday pic of your pup looking especially festive!

Holiday Decorations in Wiley Park

Whether you enjoy them or not, we didn't do it. The spontaneous appearance of holiday decorations on the trees and bushes at Wiley Park are not the work of EDOA. We can take neither credit nor blame.

All we know is that start appearing around Thanksgiving and they disappear just after New Year's Day.

We do hear that some folks don't like the effect on the natural habitat. Others make special trips with kids and grandkids to see them and make a game of spotting them. Still others have expressed affection for the brief, whimsical display of sparkle.

Whatever your take on the work of the Wiley Elves, we do seem to get more additions each year, so you might take that as a vote in favor.
